

The image shows a large grid of small, light-gray squares arranged in 100 columns and 20 rows. The grid is set against a white background. Two specific columns are highlighted with a darker gray shade: the 51st column from the left and the 52nd column from the left. These highlighted columns are positioned in the center of the grid, spanning all 20 rows.

氏名

The figure consists of a grid of 100 vertical bars arranged in 10 rows and 10 columns. Each bar is composed of 10 horizontal segments, creating a stepped or bar-coded appearance. The vast majority of the bars are white with thin black outlines. Two bars, however, stand out due to their dark gray fill: one is located in the middle column of the second row from the top, and the other is in the middle column of the eighth row from the top. These two dark bars are positioned symmetrically relative to the center of the grid.
